## Introduction

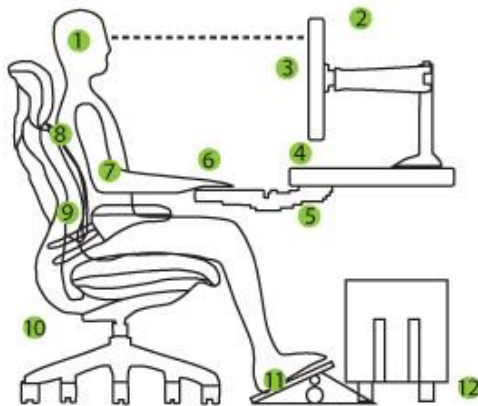

- Desk equipment is critical to ensure that employees have the best tools to work.
- Increase workforce mobility by offering flexibility to your staff to work anywhere; workstation, meeting room, cafeteria, travelling, home,...
- Use today's technology, laptop, wireless, cloud computing, VPN to get online and have your files handy
- Offer an ergonomic workstation and office environment

### Benefits gained by your organization include:

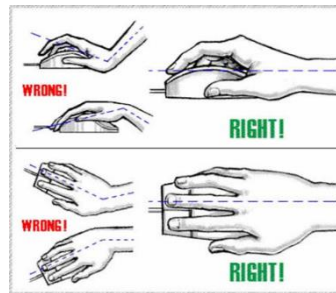

- Increased employee productivity
- Limited support required from IT staff
- Increased workforce mobility
- Highly-secure, fully-encrypted communications
- Support for business continuity strategies

## Ergonomics

### 12 Tips for an Ergonomic Workstation

1. Top of monitor at or below eye level
2. Monitor and keyboard centered in front of you
3. No glare on screen
4. Documents in line with keyboard and monitor
5. Negative tilt keyboard support
6. Wrists flat and straight
7. Arms and elbows close to body
8. Change postures often
9. Work in a reclined position
10. Take frequent short breaks
11. Feet flat on floor or footrest
12. CPU off desk

## Cloud Computing

Use today's technology to get online anywhere, stay on business, have your files handy

Desk Equipment (standard office use)

laptop (12 or 13") with a docking station  
*\* Easy laptop removal to swap into wireless network (i.e. going to a meeting)*

2 external monitors (22"), keyboard, mouse, web cam

IP landline phone, call forwarding to smartphones and/or groups

Headphone for Landline, PC, smartphone, tablet

Desk power/data/USB management

Mobility

Turn Your Computer, Tablet, Smartphone into an audio/video conferencing device. Wherever you are, you are connected to the office and the rest of the world.

Instant messaging
